DR. TOM FUHRMANN

Tom started Dairy Works as an outgrowth of his veterinary consulting practice. He sees dairies growing larger, becoming efficient, productive and profitable businesses. Just like any growing business, dairy owners and managers benefit from programs to organize and train their employees.

Tom is a dairy cattle veterinarian; a practitioner with over 25 years of experience working exclusively with dairy herds. Tom understands the job and “connects” with herdsmen, dairy owners, managers and workers. Born and raised on a Wisconsin dairy, Tom dedicated his veterinary career to the dairy industry and dairy cows. Having worked with some of the largest and highest producing dairies in the U.S. and around the world, Tom knows what it takes to be successful. Years of hands-on cowside experience have taught Tom about practical application.

Tom knows cows and understands people. He can explain principles and facts and demonstrate how to put these into practice for better results. Through Dairy Works, he brings years of experience and a passion for results to help producers improve management on dairies.
